

Please be kindly notified that EnverView APP 4.0.0 is now available on the Apple App Store and Google Play.

**For you attention!** The most updated version is **Version 4.0.1, still waiting for the approval of the platform.** Expected to have this version **ready by next Tuesday.**

There are some minor changes we fixed for better user experience for version 4.0.1. You will be notified again when 4.0.1 is ready on the app store.

You can scan below QR code or search for *EnverView* in the app store to download APP 4.0.

EnverView App

Compared to APP 3.0, we have below updates for EnverView 4.0.

1. User interface updated
2. Night mode available
3. Visual energy flow graphic for better presentation - Battery ready
4. French language added for French speaking users

**Demo Account** for testing as below
